

TekTone®

COMMUNICATIONS FOR TODAY ... AND TOMORROW.

Tek-CARE® 570

wireless nurse call system

NEW
SYSTEM RELEASE

SIMPLICITY

The Tek-CARE570 system is intuitive to program and use.

RELIABILITY

The Tek-CARE570 system is fully supervised for lost signals and low battery conditions.

CAPABILITY

The Tek-CARE570 system may be integrated with Tek-CARE nurse call, fall management and wander management systems.

Tek-CARE[®] 570

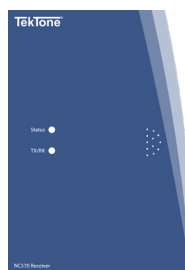

wireless nurse call system

The Tek-CARE570 Wireless Nurse Call System uses the latest wireless technology using a high-frequency network with long-range wireless signaling. Call points and sensors may be added and configured with ease. The Tek-CARE570 system offers the benefit of a number of functions not normally available when using wireless as a communication medium. The Tek-CARE Appliance Server can create activity reports for all connected nurse call and foreign systems. Calls can be received and answered from any networked mobile device to ensure staff always knows when and where help is needed.
